

# ADSEED TEE MIX

**Adseed Tee Mix is a blend of premium Sox Fan Ryegrass, Rio Vista Ryegrass, Creeping Red Fescue and Chewings Fescue. It can be used for the seeding of new Golf Tees, or oversowing existing tees.**

Adseed Tee Mix is fast establishing and has the ability to be mown at low heights, making it suitable for tees or greens surrounds.

Sox Fan is a new variety that combines high turf quality with improved pythium resistance. It has a dark green colour and has excellent wear tolerance.

Rio Vista is quick establishing and has a high endophyte level that enhances turf performance. It was a top NTEP performer.

Creeping Red Fescue has the ability to spread into the divot areas, whilst chewings fescue adds a soft, lush appearance.

#### Features:

- Dark green colour
- High endophyte content
- Dense, low growth forming turf
- Excellent disease resistance
- Improved wear

#### Seed Blend:

30% Sox Fan Ryegrass  
30% Rio Vista Ryegrass  
20% Creeping Red Fescue  
20% Chewings Fescue

#### Sowing Rates:

For new sowing, a rate of 3-4kg per 100m<sup>2</sup> is recommended. For oversowing, apply at half the new seeding rate.

During sowing activity, a complete starter fertilizer is recommended at label rates to initiate rapid establishment.

#### Maintenance:

Adseed Tee Mix can be mowed as low as 10mm, however the recommended mowing height in most applications is 25mm.

Seasonal application of a balanced NPK fertiliser is recommended to sustain a healthy sward.

#### Pack Size:

25kg
