

# Antep Trials - Sept 2006

---

*The 3rd Antep Seed Trials are under way at Mt.Scopus College.*

*They are being conducted by the AGCSA on behalf of the Australian Seed Federation, and 38 new varieties of Fine Leaf Ryegrass and 18 Tall Fescues have been sown on September 26<sup>th</sup> .2006.*

*They will be monitored for establishment ,colour ,disease etc; and Interim Reports will be available over the next 2 years.*

*A Field Day is scheduled for Autumn 2007.*

*Advanced Seed have been prominent in supplying new varieties of both seed types.*
