

M30 ELECTRIC BROADCAST SPREADER

Quickly spread fertiliser, seed and more from your ATV with the M30 heavy-duty spreader.

This high-volume 45kg rustproof poly hopper provides the capacity to get the job done in the minimal amount of time.

With the EV-N-SPRED® 3-hole drop shut-off system to ensure even uniform coverage of fertiliser, seed, chemicals, and more, the M30 is a great performer. Quick-connect; horizontal-mount system mounts the spreader to the front or rear luggage rack of your ATV. The M30 is equipped with a heavy-duty, high-torque, 12-volt motor located in the hopper, in thermoplastic case to protect it from the elements and damage.

The gauge and lever control assembly mounts to either side for easy “non-throttle hand” access. Wiring harness, on/off switch and rain cover included. The support arms & mounting hardware makes the spreader adaptable to most brands of ATVs.

The EV-N-SPRED® 3-hole drop shut-off system will ensure that the M30 provides even uniform coverage

Features

- 45kg Hopper capacity
 - rustproof poly construction
- 56kg Load bearing capacity
 - what the frame will support
- Epoxy Powder Coated Chassis
- Adjustable Rate Control assembly
- Wiring harness with on/off switch
- Mounting hardware included
- **5-Year Limited Warranty**

Optional Accessories

- Motor Speed Control - #77009ECM
