

Seeded Couch for Kogarah Council

The Kogarah Council in Sydney have recently sown a 50:50 blend of La Prima Couchgrass and Bermuda Couchgrass at the Parkside Drive Reserve.

Turf Manager, Greig Williams was looking to produce a suitable playing surface for the Soccer Club, on a ground that receives very little water and has no irrigation system.

The series of photos below show the oval :

- After the soccer season
- 2 weeks after sowing
- 4 weeks after sowing.
- 8 weeks after sowing

Watering was carried out by a water tanker truck on a when can basis, as well as relying on some natural rainfall.

The Council are pleased with the result.
