

The Championship Range

La Prima XD Bermudagrass Blend

La Prima XD bermudagrass with **X-treme Density** is a blend of superior bermudagrass cultivars selected for fast germination and establishment combined with the highest turf quality. This blend combines La Prima, a bermuda grass blend with fast establishment, and turfgrass quality, with cultivars such as Princess 77, or Veracruz, selected for superior quality.

Features :

- Excellent turf quality
- Fast germination for rapid cover
- Vibrant, dark green colour
- Drought tolerant
- High winter hardiness

Benefits :

- Adapted for all maintenance levels
- Excellent wear tolerance
- Tolerates poor quality and effluent water
- Rapid divot recovery
- Uniform turf surface
- High fertilizer efficiency
- Withstands variable soil conditions.

Seeding Rates :

- New Turf : 0.75 kg-1.5kg per 100 sqm.
- Repair : 0.5kg-1kg per 100 sqm

Establishment :

- Germination 5-7 days
- First Mowing 18-21 days
- Full Coverage 4-6 weeks.
