## Premium Couch Blends

LaPrima @ Geelong Grammar

	<p>LaPrima XD Couchgrass blend with <b>X-treme Density</b> is a blend of superior couchgrass cultivars selected for fast germination and establishment combined with the highest turf quality. The addition of high density varieties such as Veracruz and Princess to LaPrima will lift your surface to another level.</p>
	<p>Our flagship couchgrass blend and the first certified blend of its kind. Renowned for its rapid establishment and excellent turf quality, LaPrima is a popular choice for use on sportsfields, golf and general landscape where an improved couchgrass is desired.</p>
	<p>A new couch blend has joined our range. LaPrima TC is designed to utilize the rapid establishment benefits of LaPrima and the additional features of transcontinental to enhance summer density. Ideal selection to upgrade existing common couch areas or where an improved variety is desired.</p>
