

RIO VISTA

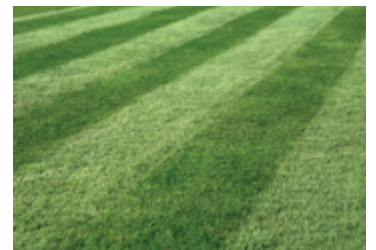

TURF TYPE

PERENNIAL RYEGRASS

Rio Vista Perennial Ryegrass offers the golf and turf professional the latest in improved overall turf quality. Originally developed from materials at Rutgers University, Rio Vista is amongst the highest performing varieties in current testing.

Features:

- Quick establishing
- Better traffic tolerance
- Improved greenup and coverage
- Endophyte enhanced
- Top NTEP performance

Fight against stress

Rio Vista Perennial Ryegrass has a high endophyte level that enhances turf performance. This endophyte is a naturally occurring fungus. It works together with the developing and mature plant to enhance stress tolerance and improve insect resistance.

Applications

Rio Vista is assured to offer the golf and turf pro, as well as the homeowner, the latest developments in improved turf.

Seeding Rates:

- New Establishment: 4–5kg per 100m²
- Overseeding Dormant Warm Season Grasses: 3–4kg per 100m²
