Everything You've Wanted In A Turfgrass

- Sports Turf
- Commercial Properties
- Schools
- Municipal Parks
- Golf Courses
- Sod Farms
- Landscapers

With quality and uniformity at a fraction of the cost for plugs, sprigs or sod **Companion Zoysia** is primed for quick germination and establishment and is much faster and easier than sprigs or plugs providing full turf cover in 10 to 14 weeks. **Companion Zoysia** is a top performer under drought, salt and other stress conditions. It provides early spring green-up, later fall green color and is disease and insect resistant.

Companion Zoysia requires lower maintenance with natural weed suppression and lower fertilizer and water requirements. Add to this **Companion Zoysia's** ease in planting and establishment as well as it's outstanding wear tolerance and you'll find **Companion Zoysia** to be everything you've ever wanted in a Turfgrass.

THE TURF PROFESSIONALS CHOICE

Companion Zoysia is the turf professional's choice worldwide. Whether in tropical climates, warm climates or transition zones **Companion Zoysia** is the perfect choice for interseeding, renovations or new construction.

Companion Zoysia can be maintained at variable mowing heights for different uses/demands from 1 inch to 2.5 inches or with increased maintenance and care, **Companion Zoysia** can be mowed at a 0.5 inch height. Exhibiting superior survival in extreme summer and winter climates **Companion Zoysia** is extremely tolerant of high salt concentrations in irrigation water and soil.
