

Turf Wicket Blend

Turf Wicket has the ability to strike quickly in low temperatures which is vital with early renovation & sporting fixture schedules.

Seed Mixture By Count

70% SR4220 Elite Fine Perennial Ryegrass

30% Axcella II Annual Turf Type Ryegrass

- Turf Wicket's unique transitional ability will allow couch to move through your wicket table as temperatures increase.
- SR4220 is an elite turf type bred as a low growing variety with high density. Low growing habit enables SR4220 to withstand close mowing situations of a turf wicket table.
- SR4220 has shown excellent seedling vigour and in particular the ability to withstand high salt levels.
