## FERTILISER

BLEND	DESCRIPTION	COMPOSITION (N:P:K)	RATE	PACK SIZES
<b>Kickstart Starter Fertiliser</b>	Starter fertiliser focuses on root development. Key NPK elements provide the right nutrients to get the seed off to a good start. Phosphorous stimulates root growth while Potassium aids in building the body of the plant enhancing disease resistance. The Nitrogen is at a level that assists with growth and development and is low enough not to inhibit the health of the young seedling.	<b>N:P:K 5: 6: 6</b>	<b>3kg/100m<sup>2</sup></b>	2.5kg 5kg 20kg
<b>All Season Fertiliser</b>	All Season Reno is the perfect fertiliser for established lawns, which will benefit from its use with a boost in colour during spring and autumn. Its high analysis formulation supplies the three major elements for the plants nutrition.	<b>N:P:K 22: 5: 8</b>	<b>3kg/100m<sup>2</sup></b>	2.5kg 5kg 20kg
<b>Super Green Controlled Release Fertiliser</b>	Gold Pro Controlled Release Fertiliser releases nutrients gradually into the soil. As the nitrogen is released slowly, it keeps the lawn green over an extended period of time. Gold Pro is ideal for use on sandy soil profiles in high traffic areas and in summer when frequent watering diminishes the lawn of nutrients.	<b>N:P:K 22: 3: 4</b>	<b>3kg/100m<sup>2</sup></b>	5kg 20kg
<b>Nitro-Green Iron Boost Fertiliser</b>	Professional grade fertiliser for high quality turf. With 5% Iron. Use what the professionals use.	<b>N:P:K 20:0.85: 2</b>	<b>3kg/100m<sup>2</sup></b>	5kg
<b>Best Nitrex Fertiliser</b>	Professional grade fertiliser for high quality turf. With 5% Iron. Use what the professionals use.	<b>N:P:K 20:0.85: 2</b>	<b>3kg/100m<sup>2</sup></b>	22.68kg

## WETTING AGENT

BLEND	DESCRIPTION	PACK SIZES
<b>Wett Up</b>	Wett Up is a non-ionic surfactant that greatly improves water repellency. It is for difficult to wet areas, and will provide uniform wetting of all soils.	2kg 5kg 10kg

### TURF COVERS

- Evergreen Turf Covers have been developed as an essential management tool for turf managers worldwide. It will protect established turf areas and accelerate turf growth for new constructions. It can be used repeatedly and will last for many years.
- Evergreen is permeable allowing air, water and light penetration which make it ideal for new seeding and oversowing. This greenhouse effect will warm the soil, resulting in earlier root growth.
- Accelerates turf growth providing rapid germination.
- Evergreen protects seed from high winds, heavy rainfall, birds and other animals.
- Environmentally friendly, utilising less water and chemicals.
- Can be cut or trimmed without fraying or damage.
- Lightweight one piece construction. It will not smother or flatten the turf surface.
- Easy to handle, install and remove.
- Designed exclusively for the turf industry
