FERTILISER

BLEND	DESCRIPTION	COMPOSITION (N:P:K)	RATE	PACK SIZES
Kickstart Starter Fertiliser	Starter fertiliser focuses on root development. Key NPK elements provide the right nutrients to get the seed off to a good start. Phosphorous stimulates root growth while Potassium aids in building the body of the plant enhancing disease resistance. The Nitrogen is at a level that assists with growth and development and is low enough not to inhibit the health of the young seedling.	N:P:K 5: 6: 6	3kg/100m²	2.5kg 5kg 20kg
All Seasons Fertiliser	All Seasons is the perfect fertiliser for established lawns, which will benefit from its use with a boost in colour during Spring and Autumn. Its high analysis formulation supplies the three major elements for the plants nutrition.	N:P:K 22: 5: 8	3kg/100m²	2.5kg 5kg 20kg
Super Green Controlled Release Fertiliser	Super Green Controlled Release Fertiliser releases nutrients gradually into the soil. As the nitrogen is released slowly, it keeps the lawn green over an extended period of time. Super Green is ideal for use on sandy soil profiles in high traffic areas and in summer when frequent watering diminishes the lawn of nutrients.	N:P:K 22: 3: 4	3kg/100m²	5kg 20kg
Nitro-Green Iron Boost Fertiliser	Professional grade fertiliser for high quality turf. With 5% Iron. Use what the professionals use.	N:P:K 20:0.85: 2	2.4kg/100m²	5kg
Nitro Green Iron Boost Liquid Fertiliser	Nitro Green Iron Boost liquid fertiliser is specifically formulated for dark emerald green high-quality turf. Provides a rapid and impressive green-up within 5-7 days.	N:P:K 15:0: 0	200-400 ml /100m²	1lt

TURF COVERS

- Evergreen Turf Covers have been developed as an essential management tool for turf managers worldwide. It will protect established turf areas and accelerate turf growth for new constructions. It can be used repeatedly and will last for many years.
- Evergreen is permeable allowing air, water and light penetration which make it ideal for new seeding and oversowing. This greenhouse effect will warm the soil, resulting in earlier root growth.
- Accelerates turf growth providing rapid germination.
- Evergreen protects seed from high winds, heavy rainfall, birds and other animals.
- Environmentally friendly, utilising less water and chemicals.
- Can be cut or trimmed without fraying or damage.
- Lightweight one piece construction. It will not smother or flatten the turf surface.
- Easy to handle, install and remove.
- Designed exclusively for the turf industry

SIZES:

The Evergreen Turf Cover is available in sizes to suit most applications:
