

EARTHWAY Commercial Broadcast Spreader

36kg W/ Pneumatic Tires

Model: 2050P

The EarthWay 36kg walk-behind broadcast spreader is remarkably easy to use no matter what the terrain. The deep tread, high floating tires tackle even rough and uneven patches of lawn with ease. This spreader is compatible with all types of granular lawn fertiliser

FEATURES

- **PATENTED SIDE SPREAD CONTROL:** Our new innovative design allowed us to eliminate side deflectors. This design feature protects your flowerbeds and sidewalks by allowing you to control the spread pattern.
- **EVEN-SPREAD:** The EarthWay three-hole drop system measures 50% of the fertiliser to left and right of centerline to achieve an accurate application rate.
- **HEAVY DUTY:** 36kg hopper capacity– rustproof poly construction and 10" high-flotation pneumatic stud type tires with deep tread.
- **VERSATILITY:** Walk-behind spreader perfect for garden seeding, salt spreading, and fertilising.

Side spread control at the tip of your fingers.

Built in left side deflector to make spreading convenient for you.

Set-up takes no time which makes storage even easier.
