

2600A PLUS BROADCAST SPREADER

The 2600A Plus is the answer for the user looking for an easy to store spreader with some Commercial features.

The steel "T" handle and solid linkage are features offered on our Commercial & Professional spreaders.

Utilising the EV-N-SPRED® 3-Hole Drop Shut-Off System ensures an even and balanced spread pattern of all granular materials.

The 25cm pneumatic wheels provide positive traction.

The 18kg capacity rustproof poly hopper provides a low profile to keep it out of the way in the tightest area. A Rate Calculation Matrix is included to assist in setting for all of today's granular products including organic materials.

The 2600A Plus has all of our greatest features in small to medium-duty spreader.
