

2750 BAG SEEDER

The 2750 is the weapon of choice when your terrain is hilly or wet.

The corrosion, tear & weather resistant 9kg nylon bag hopper is equipped with a zippered top for easy filling and closure.

This nylon construction allows for the bag to remain upright when filling yet collapse for easy storage. From the contoured base for fitting around your hip, the adjustable shoulder strap and a long crank handle, the 2750 is designed with comfortable operation in mind.

The Exclusive Rocking Agitator provides smooth, even material feeding to the distribution plate. Our high speed direct drive gear box allows the operator to adjust the spread width between 215–457cm by simply changing the crank rate.

Complete directional control and spring to close shut-off makes this the ultimate choice in hand operated spreaders.

Features

- 9Kg Hopper capacity – zippered top rustproof nylon construction
- Contoured molded base
- Adjustable shoulder strap
- Rocking agitator
- Spring loaded shut-off
