

# ROYAL BENGAL COUCHGRASS

Royal Bengal is a high quality couchgrass that has excellent seedling vigour and early establishment. It has high turf density which reduces weed invasion. It is ideal for sports fields, golf fairways and general lawn areas.

## Features:

- Very dark green colour
- High turf density
- Excellent seedling vigour
- Good disease resistance
- High heat, drought and salt tolerance

## Uses:

- Ideal for use on home lawns, sports fields and parks

## Benefits:

- Excellent quality in warm areas of Australia
- Tolerates poor quality, recycled and grey water
- Extra winter colour retention
- Very drought tolerant
- Excellent for repairs of any couchgrass

## Sowing Rate:

- New Lawns: 1kg per 100m<sup>2</sup>
- Overseeding: 0.5–0.75kg per 100m<sup>2</sup>
- Optimum sowing conditions 25–30°C

## Establishment:

- Germination 5–7 days
- First Mowing 18–21 days
- Full Coverage 4–6 weeks
