

WETT UP

Wett Up is a non-ionic surfactant that greatly improves water repellency.

It is for difficult to wet areas, and will provide uniform wetting of all soils. Available in 5lt and 10lt buckets.

Major features:

- Assists water penetration into hydrophobic soils
- Saves water losses from run-off
- Suited to difficult to wet soils
- Produces healthy turf and garden plants
- Easy application
- Non dusting
- Non hazardous
- Granules do not need to be watered in
- Provides protection from Dry Patch in lawns, turf

Directions for use:

Established Lawns / Garden Beds :

25-35ml / m². Spread evenly over the surface and water in well.

New Seedling / Oversowing :

2.5-3.5lt / 100m². Apply to surface before seeding.

Instant Turf / Sodding :

2.5-3.5lt / 100m². Apply to surface after laying sod.

Established pots :

Sprinkle onto surface and water in.
